Dear friends,

I have spent many years searching and documenting the art, techniques and historical information of the pointed pen art form. I proceed in the footsteps of those who came before me that have added greatly to our knowledge base.

In 2015, I decided to document, or at least to put into perspective my own contributions to the pointed pen art form. The result of that effort was this document. While these pages do not contain a complete list, they do represent the majority of my efforts on behalf of Ornamental Penmanship and the pointed pen art form in general. It is my hope that this document will serve as a roadmap to those seeking this information in cyberspace. It gives me great satisfaction to know that pen artists around the globe now know the art and contribution of penmen such as Lupfer, Madarasz and Zaner. I am convinced that the spark many of us have seeded over the years has now become a raging fire.

I am often asked, "Why do you give it all away?" The answer is very simple. I was a novice once too and it is my way of repaying the extraordinary kindness and generosity that I was shown at my first IAMPETH Convention way back in 1999. The quote of Pablo Picasso on page 3 of this document best sums up my thoughts on this matter. All I ask in return from anyone that has enjoyed/benefitted from the materials I provided is that you 'Pay it Forward' if you get the chance to help someone who is struggling in calligraphy or in life.

Sincerely,

Joseph M. Vitolo, D.M.D., M.S., PH.D.  
Penman, Script Specialist and IAMPETH Historian

## DEDICATION

From one Penman/Historian to another

*“For my dear friend and colleague Michael Sull who served as the initial spark that ignited my interest in the history of this wonderful art form. His continued dedication to the Art and History of Spencerian Script and Ornamental Penmanship continues to serve as a source of inspiration to me.”*

3a) I received a package in the mail from John DeCollibus containing items from the late Del Tysdal. These were notes from Charles P. Zaner's (1864-1918) class penned in 1908 by AB Endress. One third were beautifully handwritten and the other two thirds were typed. I scanned the handwritten notes that I believe were Zaner's classes to handwriting teachers and compiled them into a pdf for download. One of the lectures was from HL Darner. This is a large file of over 123 megs. He discusses OP in the last three pages. You may download the file at:
